

# Regional Product Label Management Hub

---

Top 5 Global Pharma- Leveraging Indegenes  
Clinical Expertise, Scale and Geographical  
Diversity

# Regional Product Label Management Hub

## APAC Business of Top 5 Global Pharma

### *Business Need*

- The company required a single, strategic partner to ensure that the local product labels (SmPCs) were aligned with the global labels for all its products.
- The labels had to be localized for local language and regulatory compliance.

### *Our Solution*

- Indegene was the only global partner that had the clinical expertise, scale and geographical diversity to manage this process in a compliant manner.
- Two hubs were set up in India and China to handle the workload across the APAC region.
- This engagement is in its third year currently

### *Outcome*

The team consistently delivered quality labels on time; the volume of label updates increased within the first 6 months of engagement, and the scope was expanded to provide proofreading support, QC CDS, and ADR frequency comparison table preparations.
