

Digital and Print Production Factory for US

A top 10 global client was seeking a one-stop creative hub for their advertising production needs. Derivative creative materials needed to be produced for existing assets, messaging, and branding.

CLIENT REQUIREMENTS

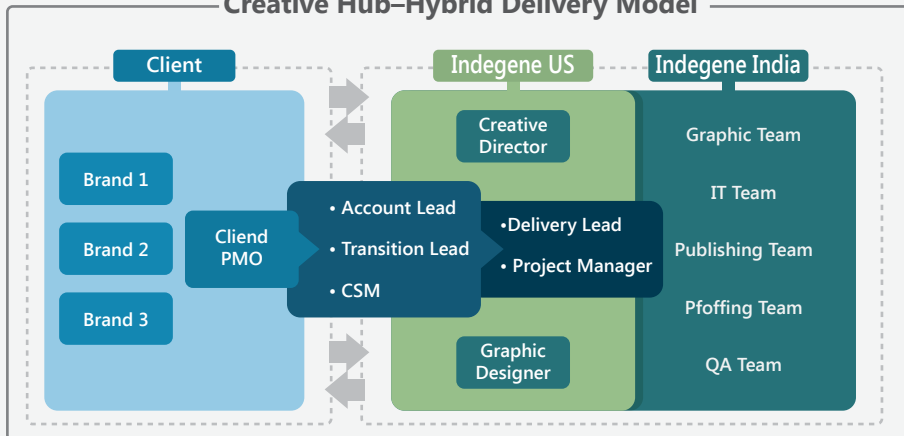

- Asset refurbishment including updates to print and digital assets
- High quality production, relevant knowledge and expertise in life sciences, and cost effectiveness

SOLUTION

Indegene established a one-stop digital and print factory to achieve several efficiencies in refreshing the client’s assets for multiple brands. This was accomplished by using:

- Indegene creative digital and print factory protocol and a proprietary workflow management tool –IndegeneConnect™
- Centers of Excellence for Creative and Digital Production, Promotional Management, Content and Migration Factory.

Creative Hub–Hybrid Delivery Model
