Advanced Solution for Predictive Safety

Top 5 Global Pharma

Business Need

- The Risk Management team required a partner to conceptualize and implement a comprehensive approach to predict safety for its products post-launch.

Our Solution

- Indegene and DrugLogic evolved a framework by combining technology with clinical expertise
- Enabled concurrent monitoring and statistical analysis of diverse data from safety databases, publications, clinical trials, social media, EMR, etc.

Outcome

Discussions are ongoing for expansion of the scope of the project to provide authoring support to prepare safety assessment and other reports.
