

NEXT Learning Experience

indegene™

Offer your talent a personalized and comprehensive learning experience

NEXT Learning Experience is an intuitive digital learning platform for life sciences organizations to deliver tailored learning experiences.

Upskill your talent seamlessly and leverage our deep platform insights to understand the dynamic needs of your employees.

L&D teams today face unique challenges

- **Need for individualized learning paths**
Learners need personalized recommendations to guide them in their quest to attain skills
- **Lack of learner-centric solutions**
Learners need the flexibility to discover and learn as per their unique needs
- **Need for deep learning analytics**
Companies lack insights into the effectiveness of their training programs and understanding of learners' needs

How NEXT Learning Experience delivers

- **Personalized learning recommendations**
Guides the learner toward his/her goals and aspirations
- **Engaging learning experiences**
Engages learners through learner-centric interfaces, gamification, and peer-to-peer learning capabilities
- **Deep analytical insights**
Measures learning activities with the latest xAPI standards and displays via comprehensive dashboards

Here is how we are positioned to help you

build capabilities, culture

Accelerate

and scale up outcomes

Personalize

experience

Future ReadyTM Healthcare

Healthcare expertise,
content and conversations

NEXTTM

Fit-for-purpose
technology

indegeneTM

Agile operations
and culture

Here is how NEXT Learning Experience works

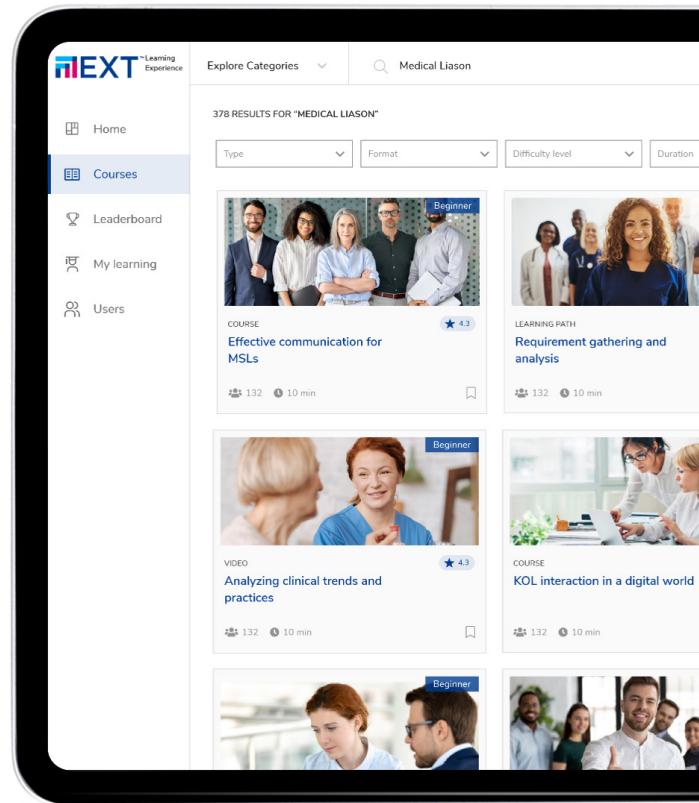

Learners can set their preferences on the platform, which will trigger personalized recommendations. They can learn as per their convenience, whenever and wherever they want.

As they learn, they will earn points and get featured on the leaderboard. The platform also encourages peer-to-peer learning by allowing users to interact with their team members and share knowledge.

The modern interface offers a sophisticated user experience to augment the learning journey and to build the skills they need for a resilient talent force. Learning administrators can gain deep analytical insights into learners' progress, engagement levels, and content affinity to understand their needs and optimize their training programs.

Here is how it is different

- Learner-centric platform**
For a personalized learning experience
- GxP validated**
To meet your compliance requirements
- Exclusively designed**
For life sciences organizations

Here is how we enhance the learning experience

Personalized learning pathways
for each learner's unique needs

Engagement-driven learning
through social learning and gamification

Agile learning
Learn on the go, with bite-sized, device-agnostic content

Deep analytical insights
Understand learner's needs and improve training programs

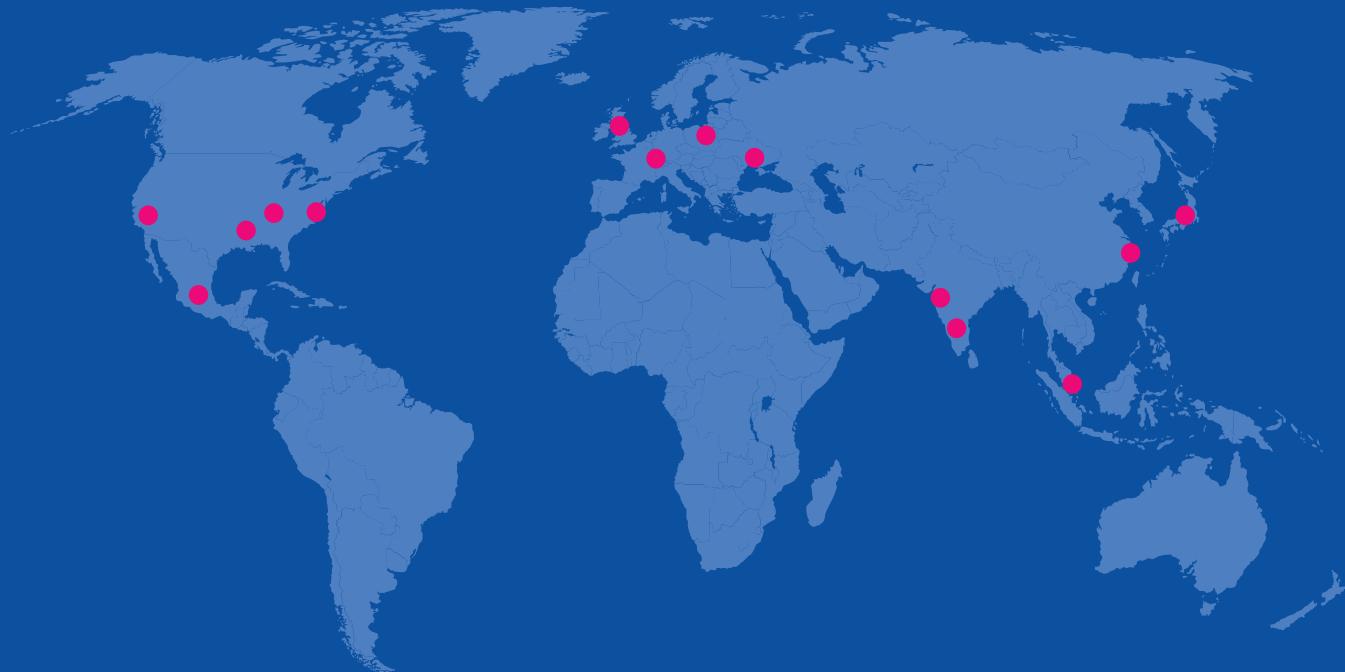

Easy content discoverability
Modern user interface with an extensive meta-tagging

Integrated learning ecosystem
Can connect with the external third party tools and platforms

Through local teams, we support healthcare organizations wherever they are
